30 - 60 - 90 - Days more Social Distancing !?!!

Question:

Why doesn't anyone (Broker, Transfer agent...) know what is happening every "Step" of the way ??

Answer:

Because they are waiting on "Step by Step" instructions from the Company, just like everyone else.

iCannabinoid

Connect, Learn, and Share

30 – 60 – 90 – Days, it really doesn't matter how long it takes to issue these shares, we will do whatever it takes...!!!

“Usually it’s our management team and our service providers running around, communicating and completing all actions “Steps” required to complete the new share issuances in all jurisdictions. Primarily we are dealing with; resolutions, notaries, legal opinions, fedex, dhl, different government services and agencies, transfer agents, back and forth with EVERYONE at the same time or concurrently, depending on what “Step” we are on until it all gets done.

*** Considering what we have accomplished thus far, (Harvard Award, Killing Cancer with Harvard, more historical clinical studies, and strong FDA initiatives targeting so many critical ailments, and so much more...).

All this “Success” that we have accomplished thus far makes the time it takes to complete all these corporate “Steps” NOTHING compared to the rewards we all receive with our “continued Success”. Hence, the “paid monster” attacks (acting like shareholders) that want us to fail.

Even the SEC wants to see us Succeed, and they are NOT even shareholders!!! We are Truly Blessed, about to be very Happy, and back on the Highway!”

“We are good, and we are almost done, it’s just taking way longer than expected, new info and changes, which are frustrating at best, however sometimes it’s in our favor and that’s the BEST Part. Things do change along the way, legal pathways, new information, economic and demographic, sometimes even new circumstances around the world changes things, so we make sure we stay fluid and make the proper adjustments to accommodate the "Steps" until we complete our Goals.

Stay Strong, Be Positive, don’t let the negative or even nasty people mess stop you from anything you want to accomplish, “Ten times out of Ten” they are just Jealous in the end.

Stay Safe and Stay Home everyone, this nasty virus mess seems to be teetering at the top right now, this thing is wild, but beatable. Stay healthy, Vitamin C as a base seems to be working for me, God willing, everything else is about basic medicinal survival. Under those circumstances please make your medical choices with your family Doctor.

Stay Strong and God Bless.”

Raymond C. Dabney

“First off, we all need to use our God given common sense and do our part to grow positive actions instead of destructive selfish inconsiderate actions.”

Cannabis vs COVID - 19

We are now hearing and seeing the attempts to re-open our Economy! *STEP by STEP, here we go!*

No doubt this mess COVID – 19 tore a whole right through our City, State, Country, and right through the entire Planet. Re-opening and maintaining our critical infrastructure is a must, we are seeing some positive results in anti-body testing, as well as new and existing drug vaccines being tested and approved by the FDA for immediate use. Building our immune systems is what we have seen as a key underlying benefit. I am STILL using Vitamin C in many forms now and Cannabinoids. I think working.

We are watching Countries, States, Cities, all trying different methods of re-opening the much-needed economy. One Minute. Starting with the Beaches !?! Florida and California of course, now they have seen just how quick how people will respond to an invite to a Beach Party! They closed ALL beaches again the next day. (California anyways!) I know we are all looking for some normalcy back in our lives, but I’m Sorry, a Social Distancing Beach Party, first !?! Wowww. Is dangerous, I think.

It certainly SEEMS like the World is generally getting it right though, everyone is certainly going Step by Step with this social distancing for the most part, I think when you look at the death count and there is NO vaccine yet !?!?! You tend to take it as VERY SERIOUS and VERY DANGEROUS.

“Our ability to adapt and change according to any situation brought upon us”. *Getting back to Work, one way or another !*

Historically we have always come together, succeeded, and progressed further than we expected when pandemic or crisis has occurred, so at least we can look at that light at the end of this nasty COVID – 19 Tunnel.

Patience is certainly a STRONG Virtue and Faith is another tool to RISE again. We must remember to ensure we drink plenty of Fluids and we are as Fluid as the water we drink so we can change directions at a moments notice as needed to Succeed.
